Contact Lenses and Lens Care Solutions

BAUSCH+LOMB

DEDICATED TO PROTECTING AND ENHANCING VISION

At Bausch + Lomb, we've been solely focused on the care of the world's eyes for almost 170 years.

As one of the best-known and most respected eye care brands in the world, we have a responsibility to meet the needs of patients and eye care professionals.

With a clear focus on innovation, quality and expert craftsmanship and a belief in advancing eye health, our mission is simple but powerful: Helping you see better, to live better.

BAUSCH + LOMB

Dear Valued Customer,

Despite the challenges resulting from the COVID-19 pandemic, the Contact Lens market has continued to demonstrate strong growth during 2022 with **YTD growth of +9%*** vs the same period in 2021. As we head into 2023, there are understandable concerns regarding its continued growth considering the ongoing inflationary challenges. However, a recent survey by The Contact Lens Institute (CLI)** provided reassurance of the **category resilience**: 94% of contact lens wearers say that if they had to make hard choices due to a change in income or lifestyle, they'd rather make sacrifices in other areas before they'd give up their lenses.

All-day comfort remains the key factor for patients: among those who stopped wearing contact lenses, **41% reported lack of comfort** as the cause. And **one in three people** (35%) who have never worn contact lenses believe they may be uncomfortable. Patients place an enormous value on being able to wear contact lenses and **price is not** a predominant factor. Data even showed that the more that consumers spend on their contacts each year, **the more value** they place on them.** With these insights, Eye Care Professionals have further reasons to speak to new contact lens materials and technologies as they have vastly improved comfort over the past several years.

In this context, Bausch + Lomb is proud to **offer a complete portfolio of products** designed to meet demanding patient needs across all pricing tiers. With innovations specifically designed to enhance patient comfort, Bausch + Lomb key products are:

- **Bausch + Lomb ULTRA® ONE DAY**, the most complete silicone hydrogel daily disposable contact lens¹; combining breakthrough **Advanced MoistureSeal®** and **ComfortFeel Technologies** aimed at supporting a stable and healthy ocular surface environment^{2,4} to deliver outstanding comfort for a full 16 hours of wear.^{5,40}
- **Bausch + Lomb ULTRA®**, the high performance monthly contact lens family with MoistureSeal Technology that offers 16 hours of outstanding comfort and visual performance^{30,31,32} will see further expansions of the **Bausch + Lomb ULTRA® Multifocal for Astigmatism** parameter range to support your practice. Bausch + Lomb ULTRA® Multifocal for Astigmatism is the first and only lens of its kind available as a standard offering.
- **Biotrue® ONEday**, the daily contact lens family to start and end the day with more moisture than leading daily disposables, maintaining nearly 100% of their 78% water content for a full 16 hours.^{13,14,15} **Biotrue® ONEday for Astigmatism** remains the **FIRST** and **ONLY** daily disposable with a -2.75 Cylinder offering.[†] And **Biotrue® ONEday for Presbyopia** incorporates Bausch + Lomb proven 3-Zone Progressive Design™ to deliver outstanding near, intermediate, and distance vision, allowing you to offer an easy, predictable fitting for your patients.²⁴

As always, we are committed to continue to develop the highest standards of quality in the industry.

We are grateful for your business; thank you for your collaboration and we look forward to our partnership.

Petra Vacca
Business Unit Director UK,I and Nordics
Bausch + Lomb Vision Care

* Euromonitor, Manufacturer Shipments of Contact Lenses & Lens Care Products, Q3 2022. **See Tomorrow 2022 study conducted online between August 9-17, 2022 with 2,439 adults ages 18 and older residing in the United States—59% of whom required vision correction. From this pool, 251 active contact lens wearers answered a series of detailed questions.

HOME DELIVERY DIRECT TO YOUR PATIENTS' DOORS

Bausch + Lomb Direct* supports your practice's e-commerce offering by providing an enhanced online ordering and direct-to patient delivery service for all Bausch + Lomb soft contact lens and lens care products.

This service enables you to fully manage your Bausch + Lomb patients online, 24/7 and helps to build patient loyalty to your practice by offering the key features below with full customer service support.*

Subscription Offering

Builds patient loyalty through a subscription model with Direct Debit capability that enables easier patient management.

Bundle Price Discounts

When combining monthly contact lenses with lens care solutions

Scheduled Orders

Scheduled deliveries ensure you don't have to keep track of when a patient requires their next supply of product but gives you the flexibility to choose the schedule to suit your patients' lifestyle and lens wearing frequency.

Practice-branded packaging

Keep your practice front of mind for your patients with branded packaging and delivery notes

BAUSCH + LOMB ULTRA® ONE DAY

Our latest innovation

THE MOST COMPLETE¹
Comfort • Moisture • Health • Design

Bausch + Lomb ULTRA® ONE DAY silicone hydrogel high performance daily disposable contact lenses optimise breakthrough moisture and comfort technologies with a complete lens design to provide a whole new lens wearing experience¹

16

16 hours of comfort

Advanced MoistureSeal® and ComfortFeel Technologies work together as a complete system to provide outstanding comfort for a full 16 hours²⁴⁰

Supports a stable and healthy ocular surface environment

ComfortFeel Technology releases comfort and eye health ingredients designed to help protect, enrich and stabilise the tear film²⁴

Highest moisture, highest moisture retention*

Advance MoistureSeal® Technology delivers 55% water content and 96% lens moisture retention for long lasting comfortable wear^{56,78}

High oxygen breathability for white, healthy looking eyes

134 Dk/t @ -3.00D²

High definition optics

Spherical aberration control for sharp vision, even when driving at night and a reduction in halos and glare, including in low light conditions³

*vs. Dailies Total1® and Acuvue® Oasys 1-Day contact lenses.

BAUSCH + LOMB ULTRA® ONE DAY Spherical

Lowest modulus* for unbeatable softness

0.5MPa^{90†}

UV blocking

Blocks at least 95% of UVB rays and at least 50% of UVA rays^{6†}

Easy handling

Easy to apply and remove³

Universal fit

One base curve, one diameter for simplicity³

Product specifications

Material	Kalifilcon A
Lens material technologies	Advanced MoistureSeal® Technology + ComfortFeel Technology
Lens design technology	High Definition Optics to reduce inherent and induced spherical aberration
Base curve	8.6 mm
Diameter	14.2 mm
Power range	+6.00D to -6.00D (in 0.25D steps) -6.50D to -12.00D (in 0.50D steps)
Centre thickness	0.08 mm @ -3.00D
Oxygen transmission	134 Dk/t (@-3.00D)
Visibility tint	Light blue
UV filter	Yes (CLASS II)
Modality	Daily wear
Replacement schedule	Daily
Modulus	0.5 MPa
Pack size	30 and 90 lenses

*vs. Dailies Total1® and Acuvue® Oasys 1-Day contact lenses. † UV-absorbing contact lenses are NOT substitutes for protective UV-absorbing eyewear such as UV-absorbing goggles or sunglasses, because they DO NOT completely cover the eye and surrounding area. You should continue to use UV-absorbing eyewear as directed.

Biotrue® ONEday

MAXIMUM MOISTURE*, MAXIMUM COMFORT**12,13

Bausch + Lomb Biotrue® ONEday is a high water content daily disposable hydrogel lens that uses revolutionary Surface Active Technology® that locks in nearly 100% of moisture for 16 hours, while providing high tear film stability for maximum patient comfort** 12,13,14,15,16

Maximum moisture*, maximum comfort**

Contains 78% of water, just like the cornea and locks in nearly 100% of its moisture for 16 hours to provide exceptional comfort from morning to night^{12,13,15,17}

Surface Active Technology

PVP, a water-loving polymer, allows for the high water content of the lens and Poloxamer 407 secures the moisture content by forming a patented dehydration barrier^{14,15,18}

Helps preserve a stable tear film

Provides superior pre-lens tear film stability after ten hours of lens wear¹⁹

Excellent breathability

Provides even more oxygen than the open eye needs to remain healthy and white^{12,19}

Aspheric optics

Spherical aberration control for clear vision throughout the day, reducing halos and glare, even when driving at night¹³

UVA/UVB protection

Blocks more than 50% of harmful UVA rays and more than 95% of UVB rays^{20,21}

*Based on ACLM Year book. 2023. ** Compared to Nelfilcon A and Etafilcon A.
*** UV-absorbing contact lenses are NOT substitutes for UV-absorbing sunglasses.
You should continue to use UV absorbing sunglasses as directed.

Biotrue® ONEday Spherical

Aspheric optics

Spherical aberration control for clear vision throughout the day, reducing halos and glare, even when driving at night^a

BAUSCH + LOMB ULTRA®

EXCEPTIONAL COMFORT AND VISUAL PERFORMANCE ALL MONTH LONG²⁹

BAUSCH + LOMB ULTRA® silicone hydrogel high performance monthly contact lens with MoistureSeal Technology maintains 95% of moisture for a full 16 hours for long-lasting comfort and visual performance^{30,31,32}

16

Exceptional comfort for a full 16 hours

As comfortable at the end of the day as at the beginning³⁰

Long-lasting moisture retention

For outstanding comfort and optical quality^{30,32,49}

Outstanding breathability

To keep eyes healthy and white^{19,32}

High definition optics

Spherical aberration control for sharp vision and a reduction in halos and glare, even in low light conditions and when driving at night³⁰

Extended wear

For wear up to 7 days with the same monthly replacement schedule*

* BAUSCH + LOMB ULTRA® contact lenses are indicated for daily wear or extended wear of up to seven days. Meaning that you can wear the lenses for 6 nights, 7 days without removing them. On the 7th day the lenses should be removed and cleaned/disinfected for one night. The following morning, the same lenses can be reinserted for another 7 days. This can be repeated for 30 days at which time the lenses should be discarded. As with any contact lens, problems can result in serious injury to the eye, including loss of vision, and clinical studies have shown that the risk of serious adverse reactions is increased when lenses are worn overnight. It is essential that patients follow the eye care practitioner's direction and all labeling instructions for proper use of lenses and lens care products. Consult the package insert for complete information.

BAUSCH + LOMB ULTRA® Spherical

16 HOURS OF COMFORT
with MoistureSeal® Technology

High definition optics

Spherical aberration control for sharp vision, even when driving at night and a reduction in halos and glare, including in low light conditions¹⁰

Base curve	8.5 mm and 8.8 mm
Diameter	14.5 mm
Spherical power	+6.00D to -7.00D (in 0.25D steps)
Add power	Low: +0.75D to +1.50D spectacle Add High: +1.75D to +2.50D spectacle Add
Centre thickness	0.10 mm @ -3.00D
Oxygen transmission	8.4 (@-3.00D)
Visibility tint	Light blue
UV filter	No
Modality	Daily wear
Replacement schedule	Monthly
Pack size	6 lenses

SofLens® 38

Designed to keep eyes comfortable all day^{as}

Sharp vision^{as}

Easy to handle and insert with inversion indicator^{as}

Product specifications

Material	Polymacon
Water content	38.6%
Base curve	8.4 mm, 8.7 mm and 9.0 mm
Diameter	14.0 mm
Power range	-0.25D to -5.00D (in 0.25D steps) -5.50D to -9.00D (in 0.50D steps)
Centre thickness	0.035 mm @ -3.00D
Oxygen transmission	24.3 (@-3.00D)
Visibility tint	Blue
UV filter	No
Modality	Daily wear
Replacement schedule	Monthly
Pack size	6 lenses

SofLens® Natural Colors

Extensive color selection

A broad range of lenses available in the 10 colours:

Amazon, Aquamarine, Dark Hazel, Emerald, India, Indigo, Jade, Pacific, Platinum, Topaz

Product specifications

Material	Polymacon
Water content	38.6%
Base curve	8.7 mm
Diameter	14.0 mm
Power range	Plano to -6.00D (in 0.50D steps)
Centre thickness	0.06 mm @ -3.00D to 0.16 mm (+3.00D)
Oxygen transmission	14 (@ -3.00D)
Visibility tint	-
UV filter	No
Modality	Daily wear
Replacement schedule	Monthly
Pack size	2 lenses

SofLens Natural Colors will be discontinued from 1 May 2024.
The product will not be available to order from this date.

High quality Speciality Vision Products

Bausch + Lomb is one of the world leaders in the research, development and supply of gas permeable contact lenses. So if you're looking for high-quality, bespoke RGP lenses for your patients and professional clinical support, choose Bausch + Lomb. As well as aiming to dispatch orders in 48 hours, all our RGP lenses are guaranteed on a warranty exchange programme: 90-day warranty for standard corneal lenses and 180-day warranty for scleral lenses* – ensuring your patients will receive the very best products, fast.

CORNEAL LENSES

Maxim (Available in Boston XO2, XO, EO and ES)

- Spherical optic zone with well blended multicurve or aspheric periphery.
- Available as spherical and with multifocal and toric options

Quantum (Available in Boston XO2, XO, EO and ES)

- An advanced polynomial aspheric back surface.
- Available as spherical and with multifocal options

Quantum K (Available in Boston ES, EO, XO, XO2 and ML210)

- A sophisticated design using proprietary aspheric peripheral curves with customisable design features.

SCLERAL LENSES

Zenlens® (Available in Boston XO and XO2)

- Ease of fittings and comprehensive parameters define the Zenlens® fitting system, making it a one-stop scleral lens product for you to help a wide range of patients.
- SmartCurve™ technology is proprietary technology particular to Zenlens® and enables streamlined fittings.

Maxim CV (Available in Boston XO and XO2)

- Designed to cater for normal and irregular corneal profiles, Maxim CV covers a range of four different diameters.

Innovative Sclerals (Available in Boston XO and XO2)

- 18mm: A mini-scleral lens with spherical optic portion and tangential peripheral zones to give limbal clearance and scleral alignment. The tangential zones can be individually adjusted to optimise corneal clearance and conjunctival landing.
- 20/23mm: Full scleral lenses for more challenging eyes. The original full scleral design lathed and then hand crafted to produce a bespoke lens for the very demanding fit.

WARRANTY EXCHANGE PROGRAMME

90-day warranty for standard corneal lenses
180-day warranty for scleral lenses

* Full exchange or credit within the time frame

Biotrue® Multi-Purpose Solution

WORKS LIKE YOUR EYES

Inspired by the biology of your eyes - makes wearing contact lenses easy on your eyes¹

Matches the pH of healthy tears

Helping to maintain the balance that eyes do naturally²³

Utilises hyaluronan (HA), a lubricant found in eyes

Delivers hydration from hyaluronan (HA), an agent found naturally in the human body and the eye, providing up to 20 hours of moisture^{4,5,6}

Protein management system

Keeps healthy tear proteins active and lifts and removes denaturated ones^{7,8}

Excellent disinfection efficacy

Dual-disinfection system works together with the bio-inspired technologies to deliver an excellent level of disinfection efficacy⁹

Type	Multi-purpose solution
Disinfecting agent	Polyaminopropyl biguanide 0.00013%, polyquaternium 0.0001%
Other ingredients	Hyaluronan, sulfobetaine, poloxamine, boric acid, sodium borate, edetate disodium, sodium chloride
Minimum disinfection time	w4 hours ⁴
Sizes (case sizes in brackets)	100ml Flight Pack (36), 240ml flat bottle (24), 300ml (24), 2x300ml (12)

* Results of in vitro study performed to evaluate the release of hyaluronan from various traditional hydrogel (polymacon, alphafilcon A, etafilcon A) and silicone hydrogel lens materials (balafilcon A, senofilcon A, galyfilcon A, comfilcon A, and lotrafilcon B) over a 20-hour time period.

ReNu® ADVANCED Multi-Purpose Solution

MORE THAN CLEAN

The only contact lens solution that combines three disinfectants and two surfactants for excellent lens disinfection and cleaning including all-day comfort.^{10/12}

Triple disinfectant system

Only multi-purpose solution with a triple disinfectant system^{10/12} Kills 99.9% of microbes^{10*}

Advanced cleaning

Dual surfactants gently clean and remove film and debris from soft contact lenses. Helps prevent the formation of deposits and dissolves protein when used daily^{12b}

All-day comfort

Conditions and hydrates contact lenses providing 20 hours of moisture^{17**}

Type	Multi-purpose solution
Disinfecting agents	Triple disinfectant system - alexidine 0.0002%, polyquaternium 0.00015%, polyaminopropyl biguanide 0.00005%
Other ingredients	Poloxamine, poloxamer 181, diglycine, sodium citrate, boric acid, sodium borate, edetate disodium and sodium chloride
Minimum disinfection time	4 hours ¹²
Sizes (case sizes in brackets)	360ml (24), 3x360ml (8)

[†] Against leading multi-purpose solutions. * Standardized Testing (ISO 14729) against S. Aureus, P. Aeruginosa, S. Marcescens, C. Albicans, F. Solani.

** P-181 retention measured across 4 leading silicone hydrogels when worn for up to 20 hours: ACUVUE® OASYS, AIR OPTIX® AQUA, PureVision®2 and Bausch + Lomb ULTRA®.

ReNu® MultiPlus Multi-Purpose Solution

FRESH LENS FEELING

Rejuvenates your contact lenses, making it feel like you're putting in a fresh pair every day[®]

Fresh lens feeling

Provides fresh lens comfort all-day[®]

Built-in protein remover

Removes accumulations of protein, film, other deposits and debris when used daily[®]

Effectively cleans and disinfects[®]

Type	Multi-purpose solution
Disinfecting agent	DYMED™ (polyaminopropyl biguanide 0.0001%)
Other ingredients	HYDRANATE® (hydroxyalkylphosphonate) 0.03%, boric acid, edetate disodium, poloxamine 1%, sodium borate and sodium chloride
Minimum disinfection time	4 hours ¹⁹
Sizes (case sizes in brackets)	100ml Flight Pack (36), 240ml (24), 3x240ml (12)

ReNu® MPS Multi-Purpose Solution

HELPS KEEP YOUR SENSITIVE EYES COMFORTABLE

A gentle formulation suitable for sensitive eyes²⁰

Gentle formula for sensitive eyes²⁰

Cleans, disinfects and comforts^{20,21}

Type	Multi-purpose solution
Disinfecting agent	DYMED® (polyaminopropyl biguanide) 0.00005%
Other ingredients	Boric acid, edetate disodium, poloxamine 1%, sodium borate and sodium chloride
Minimum disinfection time	4 hours ²¹
Sizes	2x60ml flight (12), 120ml (36), 240ml (24), 240ml flat bottle (24), 2x360ml (12), 3x240ml (8)

EasySept® Peroxide Solution

HARD ON BACTERIA. SOFT ON EYES

One step preservative free hydrogen peroxide solution for disinfection²³

High level of disinfection

The 3% hydrogen peroxide solution acts like a disinfectant on microorganisms, exceeding FDA/ISO stand-alone testing^{23,24,25}

Effective protein removal^{23,26}

Suitable for sensitive eyes²³

Preservative free²³

Type	Hydrogen peroxide solution
Disinfecting agent	Hydrogen peroxide 3%
Other ingredients	Phosphonic acid stabilizer, sodium chloride and phosphate buffers
Minimum soaking time	6 hours ²³
Sizes (case sizes in brackets)	360ml (24), 3x360ml (8)

Boston® ADVANCE System

TWO-BOTTLE CLEANING AND CONDITIONING SYSTEM FOR RIGID GAS PERMEABLE LENSES

Boston® ADVANCE Cleaner

Boston® ADVANCE Cleaner is specifically formulated for cleaning of rigid gas permeable lenses²⁷

STEP ONE: Cleans

Removes protein and lipid deposits²⁷

Tinted formula for improved rinsing²⁸

Type	Rigid gas permeable contact lens cleaning solution
Ingredients	Active component: Alkyl ether sulphate (8.0% w/w) Other ingredients: Sodium chloride, Phosphate buffer, tri-quaternary cocoa-based phospholipid, silica gel suspension; with titanium dioxide ²⁸
Sizes (case sizes in brackets)	30ml (36), Multipack (10)

Boston® ADVANCE System

TWO-BOTTLE CLEANING AND CONDITIONING SYSTEM FOR RIGID GAS PERMEABLE LENSES

Boston® Conditioning Solution

Boston® Conditioning Solution is specifically formulated for disinfecting and conditioning of rigid gas permeable lenses^{29,30}

STEP TWO: Disinfects and conditions

Contains an optimised preservative system effective in destroying harmful microorganisms²⁹

Cushioning system

Multi-polymer comfort system cushions the lens and enhances wettability throughout the day³⁰

Biocompatible with the eyes³⁰

Type	Rigid gas permeable contact lens conditioning solution
Disinfecting agents	Polyaminopropyl biguanide (0.0005%), chlorhexidine gluconate (0.003%), disodium edetate (0.05%)
Other ingredients	Salts and buffering agents, polyquaternium 10, cellulosic viscosifier, polyvinyl alcohol, derivatized polyethylene glycol
Minimum disinfection time	4 hours ³⁰
Sizes (case sizes in brackets)	120ml (36), Multipack (10)

BAUSCH + LOMB

Boston® SIMPLUS Multi-Action Solution

EFFECTIVE MULTI-ACTION SYSTEM IN ONE BOTTLE

Boston® SIMPLUS Multi-Action Solution cleans, disinfects
and conditions gas permeable lenses^{27,29,31}

One bottle system to clean, disinfect and condition rigid gas permeable lenses^{27,29}

Protein and lipid removal

With built-in protein remover for everyday protein and lipids removal²⁷

Effective disinfection

The preservative system is proven effective in destroying harmful microorganisms²⁹

Soothing effect to the eyes

A lens multi-polymer provides cushioning upon insertion and a humectant maintains wettability³¹

Type	Rigid gas permeable contact lens one bottle multi-action solution
Disinfecting agents	Chlorhexidine gluconate (0.003%), polyaminopropyl biguanide (0.0005%)
Other ingredients	Poloxamine, hydroxyalkylphosphonate, boric acid, sodium borate, sodium chloride, hydroxypropylmethyl cellulose, glucam
Minimum disinfection time	4 hours ³¹
Sizes (case sizes in brackets)	2x 60ml Flight Pack (12), 120ml (36), 2x60ml (12)

Sensitive Eyes™ Plus Saline

A GENTLE AND PH-BALANCED SOLUTION TO RINSE ALL CONTACT LENSES

Sensitive Eyes™ Plus Saline solution has a gentle pH-balanced formula which contains potassium, an ingredient found in natural tears³²

For rinsing of all contact lenses after cleaning and before lens placement on the eyes³²

Type	Saline
Disinfecting agent	Boric acid, sodium borate, potassium, chloride, sodium chloride, preserved with DYMED® (polyaminopropyl biguanide) 0.00003%, and disodium edetate
Sizes (case size in brackets)	500ml (12)

Saline 500ml will be discontinued from 1 June 2024.

OTC

OTC is available through wholesalers. (PreserVision® and Ocuvite® food supplements, Artelac® Rebalance and Artelac® Nighttime Gel and Viscotears Viscotears eye drops range)

For more details please contact our Customer Service Team.

BAUSCH + LOMB ULTRA® MULTIFOCAL FOR ASTIGMATISM

SIMPLE STEPS FOR FITTING

- STEP 1:** Update spectacle refraction and Add power
Determine the dominant eye using a sensory dominance test with a handheld +1.50 trial lens
- STEP 2:** Select toric lens power (adjust for vertex distance if necessary)
- STEP 3:** Select **Add power** following guidance below:

EVALUATE THE LENS FOR SUCCESS

- Allow trial lenses to equilibrate for at least 15 minutes before assessing fit and vision
- Confirm axis orientation
- Evaluate distance and near vision binocularly in normal room illumination
- If vision at distance and near are satisfactory, dispense lenses and schedule follow-up exam within 1-2 weeks

FITTING GUIDE

**NOW
3280
PARAMETERS**

PARAMETERS

MATERIAL:	samfilcon A
LENS MATERIAL TECHNOLOGY:	MoistureSeal® technology
WATER CONTENT:	46%
OXYGEN TRANSMISSION:	104 Dk/t @ -3.00D
LENS DESIGN TECHNOLOGY:	3-Zone Progressive Design™, OpticAlign™ Design
BASE CURVE:	8.6 mm
DIAMETER:	14.5 mm
SPHERICAL POWERS:	+4.00D to -6.00D (0.25D steps)
CYLINDER POWERS:	-0.75D, -1.25D, -1.75D, -2.25D
AXES:	10°, 20°, 70°, 80°, 90°, 100°, 110°, 160°, 170°, 180°
ADD POWERS:	Low: Up to +1.50D spectacle Add High: From +1.75D spectacle Add
VISIBILITY TINT:	Light blue
WEAR SCHEDULE:	Daily wear, up to 7 days extended wear
REPLACEMENT SCHEDULE	Monthly

ADD SELECTION

SPECTACLE ADD	BOTH EYES
Up to +1.50D	LOW ADD
From +1.75D	HIGH ADD

RECOMMENDATIONS

Set realistic patient expectations in a positive manner

Use Bausch + Lomb fitting guide to achieve the best results

Use most up to date spectacle refraction to select initial lens

DO NOT use the current prescription for other multifocal lenses

REFINE IF NEEDED: FOLLOW GUIDANCE BELOW

IF PATIENT IS WEARING:

TWO LOW ADDS

NEAR VISION	DOMINANT EYE	NON-DOMINANT EYE
INITIAL LENS	LOW ADD	LOW ADD
REFINEMENT 1	LOW ADD	HIGH ADD
Refinement 2: If vision is still unsatisfactory, make small changes by adding +0.25D at a time to non-dominant eye (wearing High Add lens) using handheld lenses, and continue evaluating vision binocularly in normal room illumination. Adjust contact lens power when vision is satisfactory.		

TWO HIGH ADDS

NEAR VISION	DOMINANT EYE	NON-DOMINANT EYE
INITIAL LENS	HIGH ADD	HIGH ADD
REFINEMENT 1	HIGH ADD	ADD +0.25D TO THE NON-DOMINANT EYE
Refinement 2: If vision is still unsatisfactory, make small changes by adding +0.25D at a time to non-dominant eye using hand-held lenses, and continue evaluating vision binocularly in normal room illumination. Adjust contact lens power when vision is satisfactory.		

DISTANCE VISION	DOMINANT EYE	NON-DOMINANT EYE
INITIAL LENS	LOW ADD	LOW ADD
REFINEMENT 1	Bausch + Lomb ULTRA® for Astigmatism	LOW ADD
Refinement 2: If vision is still unsatisfactory, make small changes by adding -0.25D at a time to dominant eye (Bausch + Lomb ULTRA® for Astigmatism) using hand-held lenses, and continue evaluating vision binocularly in normal room illumination. Adjust contact lens power when vision is satisfactory.		

DISTANCE VISION	DOMINANT EYE	NON-DOMINANT EYE
INITIAL LENS	HIGH ADD	HIGH ADD
REFINEMENT 1	LOW ADD	HIGH ADD
Refinement 2: If vision is still unsatisfactory, make small changes by adding -0.25D at a time to dominant eye (wearing Low Add lens) using hand-held lenses, and continue evaluating vision binocularly in normal room illumination. Adjust contact lens power when vision is satisfactory.		

FITTING GUIDE

BAUSCH + LOMB ULTRA® for Presbyopia
Biotrue® ONEday for Presbyopia

SIMPLE STEPS FOR FITTING

- STEP 1** Update spectacle refraction and Add power
Determine the dominant eye using a sensory dominance test with a handheld +1.50 trial lens
- STEP 2** Select contact lens distance prescription based upon spherical equivalent from spectacle Rx and following (adjusted for vertex distance if necessary)
- STEP 3** Select **Add power** following guidance below:

EVALUATE THE LENS FOR SUCCESS

- Allow trial lenses to equilibrate for at least 15 minutes before assessing fit and vision
- Evaluate distance and near vision binocularly in normal room illumination
- If vision at distance and near are satisfactory, dispense lenses and schedule follow-up exam within 1-2 weeks
